iScan Control Software (ICS) Customer Release Notes

iCS Version 4.6.0

For iScan systems

September 28, 2026

Introduction

These Release Notes detail the key changes to software components for the iScan Control Software since the package containing ICS 4.6.0

This is an optional update meant for customers who want to run EX192+ format beadchips.

If you are upgrading from a version prior to ICS 4.6.0, please review the release notes on Illumina's website for a list of features and bug fixes introduced in those versions.

The software package includes:

- iScan Control Software v4.6.0
- Universal Copy Service 2.7.3

I. iScan Control Software v4.6.0

NEW FEATURES:

- Ability to run EX192+ format beadchips
- Compatibility with APJ controller (starting in ICS 4.4)

FIXED ISSUES:

- N/A

KNOWN ISSUES:

- N/A
